

Cortical Visual Impairment (CVI) Assessment Intervention and Family Education: All services provided are under the direction of a CVI Endorsed Specialist.

SPECIAL NEEDS PEDIATRIC THERAPY: Infants, children, and adolescents with CVI can often benefit from occupational therapy (OT), physical therapy (PT), assistive technology evaluations and speech-language pathology evaluations. Our Therapy Team works with you and your family to help your child exceed expectations at home, at school, and in our community.

**Call 210-733-9050 to schedule an evaluation**
